

Chief Product Manager
(Position Code – CPM)

(1) Job Context:

IL&FS Education Group is India's largest social infrastructure company impacting 15 million people daily through various innovative technology led solutions catering to 3Es - Education, Employability and Employment, under multi stakeholder partnership formats. Over the years, we have largely catered to B2G/B2B markets

We are now working towards developing highly effective, cloud based digital solutions and platforms for teaching and learning in partnerships with several tech majors and start-ups, essentially for B2C segment. Two of our solutions that have recently been launched for B2C on freemium basis are:

- (a) Geneo (www.geneo.in) – a personalized learning platform for K-12 (currently available for Classes VII-XII for English, Science and Maths); and
- (b) EnglishBolo (www.englishbolo.in) – an online solution for learning spoken English, in partnership with EnglishHelper Inc., a US based startup

Leveraging our network, we have already onboarded 3.5 lakh users on these two platforms.

In addition, there are several other similar tech-enabled solutions that are being developed. We are also building and integrating AI led modules to Geneo and the other solutions for greater personalization

Given this, as the Chief Product Manager, you will be responsible to lead end-to-end product design, development, and implementation (web, mobile browser, smartphone apps) of various products, based on strategic priorities, industry experience, customer feedback, and analytics, in continued partnerships with several technology companies. You will also be responsible for developing solutions and implementing requirements to support the growth of the products across geographies including launching products and defining the right structure to support their ongoing maintenance
